

# Enviro Management Services

Capability Statement

Enviro Management Services (EMS) has been operating within the horticultural, landscape and environmental industry for the past 30 years. Excellence in customer service and satisfaction through the application of our core values of Professionalism, Collaboration, Respect, Integrity, and Innovation, along with our commitment to a safe workplace the environment and continuous improvement has carved out a reputation of reliable, consultative project delivery.

Our team of project managers, environmental scientists and horticulturists have been providing horticultural and environmental services including but not limited to environmental weed control, vegetation management, landscaping, grounds maintenance fuel load reduction works, and GIS data collection and collation for government and private sectors industries.

## DELIVERING SERVICES

At Enviro Management Services, we operate on a simple philosophy: **Do it right the first Time.** We believe that through open honest and transparent communication with our clients we can deliver projects that balance the need to meet short term objectives of project deliverables with a whole of life approach ensuring long term viability. We integrate people with disability into real operational roles producing value twice; through quality work and employment opportunities for people who often experience barriers to employment.

## RISK MANAGEMENT STANDARDS

Enviro Management Services appreciates the importance of risk management. Having accreditation for quality ISO 9001:2008 and AS/NZS 4801:2001 for safety is a cornerstone to our operations. We believe our systems ensure compliance that maintains our standards of operation.

## SAFE WORK PRACTICES

We believe that ensuring that the safety of our staff and the community in which they work are paramount, we believe in sustainable work practices that sees everyone having a role to play in actively seeking safer, smarter and environmentally sensitive solutions, within the workplace while sharing our learnings for all to benefit.

## OUR PEOPLE

EMS staff are qualified and experienced industry professionals that receive ongoing training and development opportunities to ensure best practice operations. Staff are active in OH&S procedures and processes while being regularly informed of safety and operational changes through weekly toolbox meetings.
